***Detailed Action***

This is the second Office Action corresponding to amendment filed Sep 27, 2007. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

***Claim Rejections - 35 USC § 102***

Claim 2 is rejected under 35 U.S.C. 102(b) as being anticipated by Kuwahara (Pat No 6,685,355). The patent to Kuwahara discloses a mounting plate (3), a slide support composed of a track (1) and a moving blocks (2, 4), the track being substantially rectangular and having ball bearing surfaces (12), the block are formed as a saddle (see Fig 2), and ball members (17).

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2-5, 9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kuwahara. As to claim 3, the recited grooves are not formed in the wall surface but

this is seen as a matter of engineering choice to those skilled in the art to have the grooves permanently formed in the wall.

***Allowable Subject Matter***

Claims 6-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.
